****ERROR AL EXECUTAR EL main.java****

The screenshot shows the Run console in IntelliJ IDEA. The top bar indicates the current configuration is 'dam-uf4-0herenciaprototip [Main.main()]'. The console output shows the execution of 'Main.main()' failed at 11/4/12 sec, 529 ms. The error message states: 'Error occurred during initialization of boot layer java.lang.module.FindException: Module Fitlers not found, required by daniel.Cabrera.herenciaexample'. The console also shows the tasks executed: 'compileJava', 'processResources', 'classes', 'jar', and 'Main.main() FAILED'. The build failed with an exception, and the console provides instructions on how to debug the issue, such as using the '--stacktrace' option or the '--info'/'--debug' options. The console also mentions that the build scan was not published due to a configuration problem.

```
6:59:08 PM: Executing ':Main.main()' --scan'...
> Configure project :
Project : => 'daniel.Cabrera.herenciaexample' Java module

> Task :compileJava
> Task :processResources UP-TO-DATE
> Task :classes
> Task :jar UP-TO-DATE

> Task :Main.main() FAILED
Error occurred during initialization of boot layer
java.lang.module.FindException: Module Fitlers not found, required by daniel.Cabrera.herenciaexample
4 actionable tasks: 2 executed, 2 up-to-date

FAILURE: Build failed with an exception.

* What went wrong:
Execution failed for task ':Main.main()'.
> Process 'command 'C:/Program Files/JetBrains/IntelliJ IDEA 2023.2.3/jbr/bin/java.exe'' finished with non-zero exit value 1

* Try:
> Run with --stacktrace option to get the stack trace.
> Run with --info or --debug option to get more log output.

* Get more help at https://help.gradle.org

BUILD FAILED in 1s

Publishing a build scan to scans.gradle.com requires accepting the Gradle Terms of Service defined at https://gradle.com/terms-of-s
The build scan was not published due to a configuration problem.
```

GRADLE BUILD CLEAN:

The screenshot shows the Debug console in IntelliJ IDEA. The top bar indicates the current configuration is 'dam-uf4-0herenciaprototip [build clean]'. The console output shows the execution of 'build clean' was successful at 11/6 sec, 142 ms. The console also shows the tasks executed: 'compileJava', 'processResources', 'classes', 'jar', 'startScripts', 'distTar', 'distZip', 'assemble', 'mergeClasses', 'compileTestJava', 'processTestResources', 'testClasses', 'test', 'check', 'build', and 'clean'. The build was successful, and the console provides instructions on how to debug the issue, such as using the '--stacktrace' option or the '--info'/'--debug' options. The console also mentions that the build scan was not published due to a configuration problem.

```
7:15:28 PM: Executing 'build clean'...
